

База данных: Tarantool (ver. 1.10)

#### Основные требования:

- Выполнение команд производится в терминале или в графическом редакторе
- Результат работы команды предоставляется в виде скриншота
- Оформление ведется в удобном текстовом редакторе

• Рабочие тетради должны предоставляться на проверку в формате .pdf

```
tarantool> sp = box.schema.space.create('stokaip21i1228')
---
...
```

```
tarantool> sp:format({{ name = 'FIO', type = 'string' }, { name = 'group', type = 'string' }, { name = 'year', type = 'unsigned'}, {name = 'Studak', type = 'string'}})
---
...
```

```
tarantool> hash_index = sp:create_index('primary', {type = 'hash', parts = {'FIO'}})
---
...
```

```
tarantool> sp:insert{'Stoka I.P.', 'IVBO-07-21', 2021, '21I1228'}
